BRUSH & CHRISTMAS TREES.**

The Transfer Station facility is under 24-hour camera surveillance.

Thank you for your cooperation & commitment to recycling.

**ANY QUESTIONS CALL THE DPW  
508-894-1216**

# Your Municipality and Waste Ban Compliance

## Summary

**Waste Ban Regulations:**  
310CMR19.017

**Prohibited Recyclable Materials:**

Glass, metal and plastic containers; paper, including cardboard; leaf and yard waste; asphalt pavement, brick, concrete; clean gypsum wallboard; wood; metal; and *effective Oct. 1, 2014*: commercial organic material.

**Prohibited "zero-tolerance" materials:** Batteries, whole tires, white goods (large appliances), cathode ray tubes (TVs and computer monitors)

**Why waste bans?**

- Capture more recyclables
- Conserve disposal capacity
- Keep hazards out of the environment

Waste bans are prohibitions on the disposal and transfer for disposal of certain toxic and/or recyclable items in the trash. Waste bans are intended to encourage reuse and/or recycling of certain waste materials, conserve disposal capacity, and reduce adverse environmental impacts from waste materials containing toxic substances.

## Waste Ban Compliance Strategy

MassDEP has an equitable two-pronged approach to compliance and enforcement of the waste bans. This strategy holds all parties responsible for waste ban compliance, including solid waste facility operators, haulers and generators of solid waste:

1. MassDEP reviews and approves solid waste facility waste ban compliance plans and inspects solid waste facilities to ensure they are in compliance with monitoring, inspections, record-keeping, signage, and other facility waste ban requirements.
