

Notice

From: The West Bridgewater Agricultural Commission

The Agricultural Commission exists to help residents resolve farm activity related grievances. We are a volunteer group made up of farmers, gardeners and community members. We have no decision-making authority. We will make a recommendation to the town government to help facilitate a decision of your grievance.

West Bridgewater's "Right to Farm Bi-law" encourages the pursuit of agricultural based activities to function with minimal conflict with abutters and town agencies. Farm activities must be conducted in accordance with generally accepted agricultural practices.

The Agricultural Commission will receive a copy of your written grievance and report its' recommendation within a specified time frame.

We are committed to bringing your grievance to a positive resolution.

Thank You, WB Ag Com
